British Wool Marketing Board Retirement Benefits Scheme Implementation Statement Year Ending 30 April 2024

Glossary

BlackRock	BlackRock Investment Management (UK) Limited
ESG	Environmental, Social and Governance
Investment Adviser	First Actuarial LLP
Scheme	British Wool Marketing Board Retirement Benefits Scheme
Scheme Year	1 May 2023 to 30 April 2024
SIP	Statement of Investment Principles
SSGA	State Street Global Advisors
UNPRI	United Nations Principles for Responsible Investment

Introduction

This Implementation Statement reports on the extent to which, over the Scheme Year, the Trustee has followed its policy relating to the exercise of rights (including voting rights) attaching to the Scheme's investments. In addition, the Implementation Statement summarises the voting behaviour of the Scheme's investment managers and includes details of the most significant votes cast and the use of the services of proxy voting advisers.

In preparing this statement, the Trustee has considered guidance from the Department for Work & Pensions which was updated on 17 June 2022.

Relevant Investments

The Scheme's assets are invested in pooled funds and some of those funds include an allocation to equities. Where equities are held, the investment manager has the entitlement to vote.

At the end of the Scheme Year, the Scheme invested in the following funds which included an allocation to equities:

- BlackRock Aquila Life Overseas Fixed Benchmark Equity Fund
- BlackRock Aquila Life (30:70) Currency Hedged Global Equity Fund
- SSGA Strategic Diversified Fund

The Trustee's Policy Relating to the Exercise of Rights

Summary of the Policy

The Trustee's policy in relation to the exercise of rights (including voting rights) attaching to the investments is set out in the SIP. The SIP was updated during the Scheme year to reflect changes made to the Scheme's investment strategy, but wording relating to the exercise of rights was not revised. A summary of this wording is as follows:

- The Trustee believes that good stewardship can help create, and preserve, value for companies and markets as a whole.
- The Trustee invests in pooled investment vehicles and therefore accepts that ongoing engagement with the underlying companies (including the exercise of voting rights) will be determined by an investment Managers own policies on such matters.
- When selecting a fund, the Trustee considers amongst other things, the investment manager's policy in relation to the exercise of the rights (including voting rights) attaching to the investments held within the fund.
- When considering the ongoing suitability of an investment manager, the Trustee (in conjunction with its Investment Adviser) will take account of any particular characteristics of that manager's engagement policy that are deemed to be financially material.
- The Trustee will normally select investment managers who are signatories to the UN Principles for Responsible Investment (UNPRI).
- If it is identified that a fund's investment manager is not engaging with companies the Trustee may look to replace that fund. However, in the first instance, the Trustee would normally expect its Investment Adviser to raise the Trustee's concerns with the investment manager.

Has the Policy Been Followed During the Scheme Year?

The Trustee's opinion is that their policy relating to the exercise of rights (including voting rights) attaching to the investments has been followed during the Scheme Year. In reaching this conclusion, the following points were taken into consideration:

- There has been no change to the Trustee's belief regarding the importance of good stewardship.
- The Scheme's invested assets remained invested in pooled funds over the period.
- During the Scheme Year, the Trustee introduced an allocation to Insight's LDI Partially Funded Gilt Funds and Insight's Partially Funded Index-Linked Gilt Funds. The Trustee considered the ESG characteristics of the funds before selecting them but, because the funds do not include an allocation to equities consideration of the exercise of voting rights was not relevant.
- During the Scheme Year, the Trustees considered the voting records of the investment Managers over the period ending 31 March 2023.
- Since the end of the Scheme Year, an updated analysis of the voting records of the investment Managers based on the period ending 31 March 2024* has been undertaken as part of the work required to prepare this Implementation Statement. A summary of the key findings from that analysis is provided below.
- The investment Managers used by the Scheme are signatories to the UNPRI.

^{*}Note the voting analysis was over the year ending 31 March 2024 because this was the most recent data available at the time of preparing this statement. The Trustee is satisfied that the analysis provides a fair representation of the investment Managers voting approach over the Scheme Year.

The Investment Managers Voting record

A summary of the investment Managers voting record is shown in the table below.

		Split of votes:			
Investment Manager	Number of votes	For Against / Did		Did not vote/ abstained	
BlackRock	160,000	88%	12%	0%	
SSGA	210,000 83%		17%	0%	

Notes

These voting statistics are based on each manager's full voting record over the 12 months to 31 March 2024 rather than votes related solely to the funds held by the Scheme.

Use of Proxy Voting Advisers

Investment Manager Who is their proxy voting adviser?		How is the proxy voting adviser used?			
BlackRock	Several Advisers	Proxy advisers provide information but voting is determined by BlackRock			
SSGA	ISS	ISS administer votes and provide research but voting is determined by guidelines set by the investment manager.			

The Investment Managers' capital Voting Behaviour

The Trustee has reviewed the voting behaviour of the investment Managers by considering the following:

- broad statistics of their voting record such as the percentage of votes cast for and against the recommendations of boards of directors (i.e. "with management" or "against management");
- the votes they cast in the year to 31 March 2024 on the most contested proposals in nine categories across the UK, the US and Europe;
- the investment Managers policies and statements on the subjects of stewardship, corporate governance and voting.

The Trustee has also compared the voting behaviour of the investment Managers with their peers over the same period.

Further details of the approach adopted by the Trustee for assessing voting behaviour are provided in the Appendix.

The Trustee's key observations are set out below.

Voting in Significant Votes

Based on information provided by the Trustee's Investment Adviser, the Trustee has identified significant votes in nine separate categories. The Trustee considers votes to be more significant if they are closely contested. i.e. close to a 50:50 split for and against. A closely contested vote indicates that shareholders considered the matter to be significant enough that it should not be simply "waved through". In addition, in such a situation, the vote of an individual investment manager is likely to be more important in the context of the overall result.

The five most significant votes in each of the nine categories based on shares held by the Scheme's investment Managers are listed in the Appendix. In addition, the Trustee considered each investment manager's overall voting record in significant votes (i.e. votes across all stocks not just the stocks held within the funds used by the Scheme).

Analysis of Voting Behaviour

BlackRock

The Trustee recognises that analysis of BlackRock's latest voting data identifies that the manager has reverted to a stance of supporting directors and generally opposing shareholder proposals aimed at addressing ESG issues.

BlackRock has recently launched a Voting Choice program that enables an investor to direct BlackRock on how to vote on that investor's behalf. BlackRock has reported that 25% of eligible investors have taken up this option and it is possible that the manager has concluded that those investors are likely to be ones who have a strong view on ESG matters. Consequently, it is possible that BlackRock believes that the remaining investors are likely to be those who tend to be supportive of director proposals and that this has been an influence on the change in direction observed in BlackRock's voting pattern.

The Trustee has no material concerns regarding BlackRock's voting record.

<u>SSGA</u>

Analysis of this year's voting records indicates a split between most US-based investment managers, who tend to vote in support of directors, and UK-based investment managers, who tend to be more inclined to oppose directors.

However, SSGA seems to be more willing to oppose directors than is the case with many other US-based investment managers.

The Trustee notes that SSGA could improve transparency by publishing voting rationale online.

On balance, the Trustee has no material concerns regarding SSGA's voting record.

.

Conclusion

Based on the analysis undertaken, the Trustee has no material concerns regarding the voting records of Blackrock and SSGA.

The Trustee will keep the voting actions of the investment managers under review, noting that in some instances there are areas that could still be improved.

DARREN HOWARTH

Signed on behalf of the Trustee of the British Wool Marketing Board Retirement Benefits Scheme

Date: 3 OCTOBER 2024

Significant Votes

The table below records how the Scheme's investment Managers voted in the most significant votes identified by the Trustee.

<u>Note</u>

Where an investment manager's voting record has not been provided for each fund, reliance is placed on periodic stock holding information to identify votes relevant to the fund. This means it is possible that some of the votes listed above may relate to companies that were not held within a pooled fund at the date of the vote. Equally, it is possible that there are votes not included above which relate to companies that were held within a fund at the date of the vote.

Methodology for Determining Significant Votes

The methodology used to identify significant votes for this statement uses an objective measure of significance: the extent to which a vote was contested - with the most Significant Votes being those which were most closely contested.

The Trustee believes that this is a good measure of significance because, firstly, a vote is likely to be contentious if it is finely balanced, and secondly, in voting on the Trustee's behalf in a finely balanced vote, an investment manager's action will have more bearing on the outcome.

If the analysis was to rely solely on identifying closely contested votes, there is a chance many votes would be on similar topics which would not help to assess an investment manager's entire voting record. Therefore, the assessment incorporates a thematic approach; splitting votes into nine separate categories and then identifying the most closely contested votes in each of those categories.

A consequence of this approach is that the total number of Significant Votes is large. This is helpful for assessing an investment manager's voting record in detail but it presents a challenge when summarising the Significant Votes in this statement. Therefore, for practical purposes, the table on the previous page only includes summary information on each of the Significant Votes.

The Trustee has not provided the following information which DWP's guidance suggests could be included in an Implementation Statement:

- Approximate size of the Scheme's holding in the company as at the date of the vote.
- If the vote was against management, whether this intention was communicated by the investment manager to the company ahead of the vote.
- An explanation of the rationale for the voting decision, particularly where: there was a vote against the board; there were votes against shareholder proposals; a vote was withheld; or the vote was not in line with voting policy.
- Next steps, including whether the investment manager intends to escalate stewardship efforts.

The Trustee is satisfied that the approach used ensures that the analysis covers a broad range of themes and that this increases the likelihood of identifying concerns about an investment manager's voting behaviour. The Trustee has concluded that this approach provides a more informative assessment of an investment manager's overall voting approach than would be achieved by analysing a smaller number of votes in greater detail.

Investment Manager Voting Policies
